<http://www.charlestoncity.info/dept/content.aspx?nid=124>

 This week trolley track ties were removed near the King and Market Street intersection and this work will be on-going. The same status applies to electrical ductbank work here. One-lane of traffic is open on the east side.

 Next week, work on the new water main will also begin in this same area.

 The electrical transformer pad installation adjacent to Horlbeck Alley is on-going.

 Next week, Fulton Lane will close so that electrical ductbank work can begin. Parkers of the private lot at the intersection will be contacted with information.

 The sewer repair will be completed this week in front of Tellis Pharmacy's parking lot at 125 King Street. Although flowable fill will be infused into the opening and covered with steel plates, the area will remain closed until it is paved on Tuesday, September 2<sup>nd</sup>. The lot is scheduled for re-opening on Wednesday, September 3<sup>rd</sup>.

 Also next week in this block on King Street between Queen and Broad Streets, the remaining re-lining of the sewer main will take place at night.

 In a one-week look ahead to the week of September 8<sup>th</sup>, work to reline the lateral sewer services into buildings will commence during daytime hours. Work areas will be identified that are not already being impacted by other streetscape activity. Bret, the Community Liaison, will give advance notice to merchants in affected blocks.

 This is a reminder that in this phase of Streetscape too, the King Street standards will be removed and not replaced when the new bluestone sidewalks are installed. Please make arrangements with us to retrieve your sign once hardscaping begins.
